Project Number : NIIS/2024-2025/Dec/IP-01

Project Title:

SkillBazaar – A One-Stop Shop for Educational Courses

Project Description:

SkillBazaar is an **online course-selling platform** that enables educational institutes and instructors to **list, sell, and manage** their courses. It allows students to browse, purchase, and enroll in courses, providing a seamless e-learning experience.

Key Features:

For Admin/Institute:

1. **Course Management** – Add, edit, and delete courses with descriptions, pricing, and video previews.
2. **User Management** – Manage instructors and students.
3. **Order Management** – Track purchases and generate reports.
4. **Payment Integration** – Secure transactions via online payment gateways.

For Instructors:

1. **Create & Manage Courses** – Upload videos, PDFs,
2. **Track Student Progress** – View enrolled students and their completion status.
3. **Earnings Dashboard** – Monitor revenue from course sales.

For Students:

1. **Course Browsing & Purchase** – Search for courses by category, rating, or instructor.
2. **Personalized Dashboard** – View enrolled courses, progress, and certificates.
3. **Secure Payments** – Multiple payment options (UPI, cards, wallets, etc.).
4. **Course Reviews & Ratings** – Give feedback on courses.

Tech Stack (Using Advanced Java Tools):

- **Frontend:** HTML, CSS, JavaScript, JSP
- **Backend:** Servlets, JSP
- **Database:** MySQL
- **Payment Gateway:** QR Code Scanning

Expected Outcome:

A **fully functional e-learning marketplace** where institutes and instructors can sell their courses, and students can easily enroll, pay, and learn.
